Oath/Declaration

The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

Applicant has not complied with the requirements 37 CFR 1.175, which in turn incorporate the requirements of 37 CFR 1.63 because the declarations of record do not acknowledge the filing of a foreign application. A new reissue oath or declaration is required in the body of which the present application should be identified by application number and filing date and which states that foreign priority under 35 U.S.C. 119(a)-(d) to International Application No. PCT/US98/05615, filed March 23, 1998 is being claimed.

Applicants also need to correct the first line of the specification to reflect that foreign priority is being claimed under 35 U.S.C. 119(a)-(d), not only 119 which includes (e) as instantly stated. It is suggested to rewrite the first line of the specification, as

“This application is a reissue of 09/272,916, filed March 19, 1999, now U.S. Patent No. 6,255,309, issued July 3, 2001, which claims foreign priority under 35 U.S.C. 119(a)-(d) to International Application No. PCT/US98/05615, filed March 23, 1998.”

Several attempts to rectify this problem were made by telephone but Applicants have not responded. This application is now withdrawn from issue and under examination in the Technology Center. It is noted that this reissue application was filed to correct the sole error of claims to foreign priority, which has not been corrected.

Claims 1-6 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175. The nature of the defect in the declaration is set forth in the discussion above in this Office action.
